Waterloo: The Campaign Of 1815: Volume I: From Elba To Ligny And Quatre Bras

Synopsis

The first of two groundbreaking volumes on the Waterloo campaign, this book is based upon a detailed analysis of sources old and new in four languages. It highlights the political stresses between the Allies, and their resolution; it studies the problems of feeding and paying for 250,000 Allied forces assembling in Belgium during the *undeclared war*, and how a strategy was thrashed out. It studies the neglected topic of how the slow and discordant Allies beyond the Rhine hampered the plans of Blücher and Wellington, thus allowing Napoleon to snatch the initiative from them. Napoleon's operational plan is analyzed (and Soult's mistakes in executing it). Accounts from both sides help provide a vivid impression of the fighting on the first day, 15 June, and the volume ends with the joint battles of Ligny and Quatre Bras the next day.

Customer Reviews

The book is beautifully written, well mapped, and it will be the authoritative book on Waterloo for all time. (Major-General Sir Evelyn Webb-Carter, KCVO, Chairman of the Waterloo 200th anniversary) a brilliant tour de force, not least for its comprehensive coverage of matters that so many histories of warfare either ignore or skate over. (Major-General Julian Thompson, CB, OBE) This book is a gem. Every chapter is filled with new information I have not seen before. It is a must-read for those who are interested in the tumultuous events of 1815. (Robert Burnham, editor-in-chief, The Napoleon Series) It will be decades before this book is superseded as the Best account of those extraordinary events of 1815. (Professor Andrew Roberts, author of Napoleon the Great) beautifully written and exhaustively researched; John Hussey's book will hold the field for a very long time.

(Professor Sir Hew Strachan)

After reading History at Cambridge John Hussey spent 30 years working for BP around the world including the Congo in the 1960s and Nigeria in the 1970s. He was awarded an OBE in 1971\|. He has written many articles on British military history, mainly on the Napoleonic and First World Wars, and served as a member of the International Historical Committee for the restoration of the Waterloo Battlefield. He is the author of MALBOROUGH: HERO OF BLENHEIM (Weidenfeld & Nicolson, 2004) and is a Fellow of the Royal Historical Society. Hew Strachan is Professor of International Relations at the University of St Andrews and was formerly the Chichele Professor of the History of War at All Souls College, Oxford.

It is a very good book on the Waterloo story. I have been interested in Napoleon and the Duke of Wellington. I am also interested in the armies of the period. The author is a good writer and he has the story about that time. I am going to look forward to Volume Two when it comes out.
