Very clear and concisely written and formatted. My son enjoys reading these while he's brushing his teeth or taking time to relax. They'll be very useful when he's in high school earth science.

Good condition

Book came in as described - now to get my teenager to study fro her testout!

required for school. looks fine

My son loves these quick study/class aids. I like that they are pre-punched and have a coating for them. My son likes them because they are very handy and he can usually find items he is looking for without having to flip through a text book.

Great buy

Perfect!! The school was happy to have it. Thank you
