What can you say bad about Little Einsteins??? Nothing. This book/dictionary is great - my 3 year old loves this. It's not really read-able - it has a short paragraph/sentence or two at the top of each page, which is a different topic (In My Kitchen, At the Zoo, etc) and then identifies objects with a word. The LE's are on each page. It's a fun book to look at with a toddler. So glad I ordered this.

My 4 y/o son loves this book! He's a huge fan of Little Einstein's but the products are hard to find. We came across this book at the library and knew we needed to buy it after he enjoyed reading through it. Great illustrations and follows the educational theme of the shows.

This is so cool! So much information and my kids favorite characters to boot. All the pages were in great shape for being used. The front cover was pretty worn but it's still good especially for the price.

Our three year old blew past almost all of his other Christmas gifts to get to this one. Since that day it has accompanied him around the house almost everywhere. It is very easy to understand and has loads of photos diagrams with the Little Einsteins characters on every page. It is a rather large book which is fun for sitting down on the floor and exploring. It reminds me very much of the Roger Priddy books but with a more dynamic picture set up and familiar Little Einstein friends to explain it all. Worthwhile book friend for any Little Einstein fan.

Little Einsteins fans will love this book.

My grandson has a definite favorite when it comes to TV show characters. Disney quit making the Little Einsteins series and the toys that went with it. Big mistake! Most educational show for kids ever! This is a book that I'm sure will teach him more than any other about words and letters. In great condition for used.

This is by far the best item I have ever purchased on . Yes, I know it's a Little Einsteins dictionary but you cannot go wrong with this purchase. The pages are filled with wonderful pictures and words and all the Little Einstein characters. Really a magical book, in my opinion.

Book came in great condition. I'm glad I ordered it!
