Customer Reviews

I really like this book. You can use it if you are helping out your kids or if you are giving classes to other children. You can even use it yourself if you are learning. The Arabic font is large enough for beginners like myself.

great books to introduce Quran to kids. It gives a background of Surah first and then translation. than Surah in Arabic and English Alphabet. It is written in easy English and my 3rd grader can read it himself..

ÃƒÂ mash'allah this kid's Qur'an is lovely. It has the English translation, then the Arabic text and finally the transliteration which is great for someone like me who can't read Arabic. Am using it to read the kids Qur'an because it is super easy to understand in the way it was interpreted even my 5 year old understands it. After each Surah they ask few questions and they really enjoy the Qur'an group reading. May Allah bless those

involve in producing this book Ameen!

Jazakallah this book is amazing and it's written in a simple way that anyone can understand. I would recommend this book for both adults and children who really want to understand the Quran. I bought this book for my siblings but I am also learning from it Allahu Akbar.

This was a great product. I wish there was one for the entire Qur'an. Nevertheless, definitely worth it. It has pictures, the English, romanized Arabic and the actual Arabic characters

I love that there is something out there like this, I really appreciate the author's work. I just had a few issues with the transliteration. For children who are not native Arab speakers and who have not had any exposure to Arabic at all, expecting them to read the transliteration on their own is not a good idea as mispronunciation can easily happen. I use this at a weekend school and recommend it to be used one-on-one with children.

It is so engaging for my 7 year old. It's written in easy to read format. May Allah reward Yahiya Emerick.
