Customer Reviews

This review is specifically for the first title of this four book collection as I have yet to complete the others at the time of this posting. A promising start to a admittedly crowded field of established paranormal romance authors but at a ridiculous cost of a dollar, I couldn't not try another author. Glad I didn't as the intensity between the two protagonists was very spicy but tasteful, not erotica. Hoping for a lot more backstory into the several vampires introduced in the first book as I continue the series. Hopefully introduced gradually as one would learn naturally being around another person, instead of flashbacks. Highly recommend especially at the current reduced price.

I really liked the stories, the only thing I didn't like was that they were too short. I thought they were going to be the size of the books themselves, but they had other books in them. When you add them up(3 books) they would be one book. Otherwise they were good stories.

Written beautifully. A box set of different stories of the Calder Witches. Enjoyable, sexy and suspenseful. I really enjoyed reading this box set and would happily recommend this author and this boxset to any reader.

I really liked these different books. There were a variety of different stories in each book so that you have a lot to read. I voluntarily reviewed an Advanced Reader Copy of this book.

What an interesting series. The stories are packed with excitement, angst, deceit, romance, and twists and turns for days! Bundled is the way to go...no waiting to see what comes next!

Loved it I couldn't put it down. Thanks for the wonderful reading and the chance to read it. Please keep on writing. I hope you all enjoy it.

It took a while to read it all. But in the end it was great. Really enjoyed it

I loved reading this series. It took a lot of unusual twists and turns even to the end. I would love to read more books like this. Mating between different species was very interesting. I voluntarily

reviewed this series. Thank you.
