Customer Reviews

Not really worth money. It is a comprehensive list and the link to the book is nice but even a buck is too expensive for what it is.

This listing is good for basics, but does not contain all series listings, graphic novels, comics or audio books.

This is a great guide for keeping track of Stephen Kings fantastic Multiverse! Definitely a must have if you plan to read them all!

Very Informative since he has so many books. I wish it would have identified all of the books associated to The Dark Tower.

Good reference for my favorite author. Clear, straight forward listings. I was able to highlight titles, looking forward to new books. Hopefully will update.

A very useful tool for every King fan. Found some books that I missed, so now I can catch up.

Great list to have while out shopping- really love the highlight feature! Other authors available as well, which eliminates carrying a list around with you!

Just exactly what it says. It's not current but it will do. I just needed something to go by when I'm out shopping and come across some of Kong's older works.
