The Norton Field Guide To Writing (Fourth Edition)

Synopsis

Flexible, easy to use, just enough detail—•and the number-one best selling rhetoric. The Norton Field Guide to Writing's flexibility and ease of use have made it the leading rhetoric text on the market—and a perfect choice for committees representing varying teaching styles. With just enough detail • and color-coded links that send students to more detail if they need it • this is the rhetoric that tells students what they need to know but resists the temptation to tell them everything there is to know. The Fourth Edition includes new chapters on summarizing and responding, on developing academic habits of mind, and on writing literary analysis. The Norton Field Guide to Writing is also available with a handbook, an anthology, or both. To make the book more helpful for multilingual writers, the versions with the handbook include new chapters on idioms, prepositions, and Englishes; to accommodate instructors and programs teaching literary analysis, the versions with the anthology include two student essays that analyze literature and five short stories and poems for analysis. All versions are available as low-cost ebooks and in mobile-compatible formats for smart phones and tablets.

Customer Reviews

I needed this for my college class and this book has helped me a lot from learning how to write grammatically correct and understanding more in depth about writing. I recommend for anyone trying to build up their writing skills. The only con is that the book is kind of heavy especially when I'm commuting an hour or so in the train

Book arrived and in Perfect condition ✓

Great!

The textbook is good.

This book was purchased for my granddaughter's college class.

It was what the professor asked for so is fine! But it has really helped so far

Bought these for my granddaughter's college class. She should probably rate.

It is a good book, very informative.
