BIG R, little r, what begins with R? Rosy's red rhinoceros. R...r...R From Aunt Annie's Alligator to Rosy's red rhinoceros to a Zizzer-Zazzer-Zuzz, learning the alphabet is bound to be fun with Dr. Seuss. And with this small, sturdy board-book version of his classic ABC book (Dr. Seuss's ABC), even the tiniest tots can indulge in a little alphabetical education. Each letter is featured with Dr. Seuss's unmistakably nonsensical illustrations and text: "Lion with a lollipop," "Camel on the ceiling," "Uncle Ubb's umbrella and his underwear, too." The youngest readers-to-be will get lots of letter practice with the repetitive use of each letter and the easy-to-memorize rhythmic rhymes. Soon your favorite preschooler will be reading this book aloud to you! (Baby to preschool) --Emilie Coulter

Dr. Seuss ignites a child's imagination with his mischievous characters and zany verses.The Express --This text refers to the Hardcover edition.

I was raised with Dr. Seuss Books, now time for the next generation.Grand-kids love it when I visit and read a book to go to sleep. It is the perfect way to get them to relax, either for nap or bed. Gives

nice subject to dream about too.

I love these books and so does my grandson. When my daughter decided that this one would live at other grandparent's house, I had to buy another to have at home. So cute, and I read this to my grandson regularly, the rhymes and rhythms are fun to read, almost as good as Chicka-Chicka-Boom-Boom!

Check sizing before you purchase! Cute book but very small

The book/story itself is cute. I think the cardstock will hold up much better than a regular book. I bought this to be part of a gift at a baby shower, but the book I received does not look new. I was under the impression that I purchased a new book. However, the one I received has a lot of scuffs all over it. I am a little embarrassed to gift it.

I bought these books for a very dear friend's first child. Dr. Seuss is synonymous with quality children's books that are read time and time again. I plan to add to her collection. You can't go wrong with these books and kids love the vivid drawings and text.

I love this little book! My almost 2 year old loves how it's the perfect size for him. He'll sit on the couch and flip through the pages and look at the pictures when i'm not reading it to him. I like that i can throw it into my purse when we got out so he can have something to do. I hope my review helped you with your decision whether or not to buy this product. When i buy products i try my best to give an honest and unbiased review whether or not i received it free, at a discount or paid full price. With that being said, I did not receive this product free or at a discounted price for my honest review. I enjoy helping others where others have helped me. Thanks for taking your time to read my review!

This was helpful for a friend struggling with age and memory issues; To read like a play to trigger her long term memory. It is also a delightful book for toddlers and family!

Smaller than I thought it would be but will work well as a stocking stuffed
