Customer Reviews

It does say "Easy" and that is what you get. These are simple, short, arrangements of familiar melodies. I hate it when people buy a product and then complain because they get what was described but I am going to do that and say so up front. I looked at the sample pieces that were listed and they were simple but seemed pleasant. Unfortunately, they were the best pieces in the book. Many of the tunes are really short and the guitar and flute parts are so simple as to be embarrassing. I had hoped to get some, simple, sight readable fodder to pleasantly fill time while my wife and I play duets. Unfortunately, these are just a bit too simple and short and sound so. That is the real rub for me. They sound as if they were written to be the "Big Note" version. I guess that I just hoped for not quite so simple. Having said that, This might be a decent book for a beginning

guitar player and flutist. Ultimately, I gave it 4 stars because the book does not lie. It is exactly what it says it is and ultimately, the simple arrangements are pleasant. I think it could be good for middle school kids or beginners.

This is the only music out there for beginning flute/classical guitar duets. It has the advantage of popular pieces in easy arrangements that are attractive in their execution. It also has a large variety of pieces that could be used for different occasions: weddings, special church music, etc. It is probably too simple for the flutist but for the beginning classical guitarist, it is just the ticket. The only disadvantage is that many of the pieces are abbreviated for public performance.

Nice book.

The standard well-known classical themes. A little too simplified, in some cases, but good to work with.

Exactly what the title says. The pieces chosen are simple and classic selections.

The print needs to be darker and larger. Very hard to read from the kindle and laptop. I guess I need to buy the hard copy.

Nice Product.

Pretty simple, basic tunes. Definitely beginning, but can still be played quite well. The selection is quite good for what it is. check out the table of contents. My partner and I plan to use some of these tunes for a demo CD to take to possible gig sites. If you're advanced, it probably won't offer much. Otherwise, it's a good place to start.
