A very useful book on the subject which gives you the crux and essentials which most text books ramble on and on with leaving one to wonder what are they are talking about. This Schaum's Outline also serves as a good reference for engineers who need to brush-up on some of the essentials so as to get a project done. Now why couldn't the professors I had in university be as clear and concise as this Schaum's Outline is on the subject?

Super book !!! Schaum's outlines R clear, concise and easy to comprehend. Ideal 4 beginners like myself.

Book purchased user it is in very good condition low price ++++++

Great book to refresh with digital basics.

Very happy with the purchase.

knowledge is power

Thank you :)

Just what I expected
