The History Of NASA (Out Of This World)

Book Information

Lexile Measure: 1100L (What's this?)

Series: Out of This World

Library Binding: 128 pages

Publisher: Franklin Watts (September 2000)

Language: English

ISBN-10: 0531117189

ISBN-13: 978-0531117187

Product Dimensions: 9.3 x 6.7 x 0.5 inches

Shipping Weight: 12.8 ounces

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #1,394,208 in Books (See Top 100 in Books) #48 in Books > Teens > Education & Reference > Science & Technology > Technology > Air & Space Science #63 in Books > Teens > Education & Reference > Science & Technology > Astronomy #507 in Books > Children's Books > Education & Reference > Science Studies > Astronomy & Space > Aeronautics & Space

Age Range: 12 and up

Grade Level: 7 and up

Customer Reviews

Grade 5-7-The further reading and annotated address/Web site lists at the end are all that's above average in this mistitled survey. What Spangenburg and Moser present is not a history of NASA, but yet another standard account of the U.S. space program, with a particular focus on the space race. The authors tally satellites and space probes, capsules and shuttle missions, but never give readers more than glimpses of the organization that surmounted so many daunting political and scientific challenges to get them off the ground. Furthermore, events after early 1999, such as the failure of the Mars Polar Lander, are mentioned without discussion in the appended (unindexed) chronology but not in the main text. Minor errors, like the repeated assertion that gravity has no effect in space, plus a stingy selection of small photos and a glossary that opens with two incorrect definitions, further weaken the presentation. With titles such as Carmen Bredeson's *Our Space Program* (Millbrook, 1999) and Carole Stott's *Space Exploration* (Knopf, 1997) already available, and new treatments of the subject coming out in a steady stream, this one should be left on the launch pad. John Peters, New York Public Library Copyright 2001 Reed Business Information, Inc.

best invention ever Seems well built and good quality So far this item is great I was really surprised at the productt, brilliant After using it around one week, I have to say Excellent. what a great buy

This latest addition to the 'Out of This World' series provides a fine history of NASA, using color photos to appeal to middle school students of space history. Coverages of NASA endeavors alone aren't common and ages beyond the middle school range will find this equally useful: chapters present over a hundred pages of timeline information and details on space exploration and NASA involvements.
