Philosophy Of Religion: Thinking About Faith (Contours Of Christian Philosophy)

Synopsis

With over 40,000 copies in print since its original publication in 1982, Steve Evans's *Philosophy of Religion* has served many generations of students as a classic introduction to the philosophy of religion from a Christian perspective. Over the years the philosophical landscape has changed, and in this new edition Zach Manis joins Evans in a thorough revamping of arguments and information, while maintaining the qualities of clarity and brevity that made the first edition so appreciated. New material on divine foreknowledge and human freedom has been added as well as on Reformed epistemology. The discussions on science now cover new developments from cognitive psychology and naturalism as well as on the fine-tuning of the cosmos. The chapter on faith and reason has been expanded to include consideration of evidentialism. The problem of evil now forms its own new chapter and adds a discussion of the problem of hell. The standard features remain: a survey of the field, an examination of classical arguments for God's existence, and an exploration of contemporary challenges to theism from the social sciences and philosophy as well as the natural sciences. The meaning and significance of personal religious experience, revelation and miracles--all within the realm of contemporary religious pluralism--are likewise investigated. A classic introduction thoroughly updated and refreshed for today's student.

C. Stephen Evans (Ph.D., Yale) is Distinguished University Professor of Philosophy and the Humanities at Baylor University. He previously taught in the philosophy departments at Calvin

College, St. Olaf College and Wheaton College. His publications include *Why Believe?*, *The Historical Christ and the Jesus of Faith: The Incarnational Narrative as History*, *Kierkegaard's Ethic of Love* and *Keirkegaard on Faith and the Self: Collected Essays*. R. Zachary Manis (Ph.D., Baylor University) is assistant professor of philosophy at Southwest Baptist University.

The entire "Contours of Christian Philosophy" series is excellent and I would recommend picking up Hasker's "Metaphysics," Wood's "Epistemology," Holmes' "Ethics," and especially Morris' "Our Idea of God," which is my personal favorite of the series.

Fast and the book arrived the way it was described.

Perfect book. No wear and tear. Super happy with this product. Item was better than described! Quick shipping, good packaging. I recommend this seller.

I used an earlier version of this book for an introductory philosophy course, which I taught. This little book gives a very comprehensive and comprehensible overview of the area of philosophy of religion. Recommended for folks who are new to the topic or who would like a refresher on many topics in philosophy of religion.

great

It's a very good book.

Bought for school - interesting read. I think it'll be something I continue to read instead of keep as a coffee table accessory.

just as described, good quality
