Customer Reviews

When I review a book such as this one, I always start out by saying, I am not an editor. I comment on the content of the book, not the grammar, or punctuation. Although, sales might increase if there were not quite so many mistakes. And that speaks to professionalism. It makes it difficult for readers to take what you write seriously, if they keep finding obviously unedited text. Now, having gotten that out of the way; the information and tips in the book are right on target. I will not go into detail about them, as you the reader will have to find out for yourselves; What Is Inside The Mind Of An Alpha Male. But, remember a true Alpha Male does not have to show that they are one, people will already know it. And being a bully, is not the sign of being an AM.

Too many games about getting into a woman's pants instead of a lasting relationship, it got tiring

after a while. The lack of proofreading and editorial corrections distracted from the content.

A first grader could find spelling and grammatical errors on every page. I found several on each page. Pathetic and insulting

This book is outstanding, it gives you a good hard look at what a women does and how they try to break a mans conference. Learn how to stop the control issues before you are in to deep. This book is going to help you create your own destiny in your controlled environment not hers

The Grammer, spelling and fowl language made for a hard read. However, getting thru the low brow presentation allowed you to glean a few truisms.

It's good, but missing last part and appendix makes difference. Would be a five is star of everything was alright.

This book really has a lot of good advice in it. It definitely is geared toward getting the reader to start taking action and changing their life, which is a great contrast to all the theory you find in books on subjects like this. It has a great value to price ratio.

Really really good, I've learn a lot of Think and I'll try to apply them. Thank you very much for this book
