## Customer Reviews

Lynne Robinson is one of the most well-known and respected figures working in pilates and well-being sectors today. She co-founded the Body Control Pilates group in 1996, which has since trained 1,500 teachers internationally. She resides in the U.K. Kate Fernyhough is a licensed physiotherapist with 20 years of experience and is also a Body Control Pilates instructor in the U.K. She works with Lynne Robinson as a medical consultant.

The book is very informative and has great pictures. It has great adaptations for the third trimester. BUT I was looking for a DVD! It's pretty hard to figure out how to do it when you have to read and look at pictures and then try to remember how to do it even though you can't really see it

being done. I like the DVDs better.

This book did not meet my expectations. As a Pilates instructor, this book is too basic for the information I was looking for.
