Customer Reviews

The book gives enough to wet the appetite to prepare you for the sale of her course. There could've been more "How To" without giving away the farm. I understand the author is here to make money so I can't fault that. But I believe a tad bit more could've been disclosed. I don't recall the last time I read a book cover to cover in a 2 hour span. Overall a decent buy for \$10. I've blown that on junk with no value. At least I have somewhat of a better idea and her YouTube videos help some too. Doesn't hurt that she is gorgeous so viewing the videos is a double win.

This book was very insightful. Alicia Cox paints a clear illustration of How she "Gets The Deed" to homes without putting any money down. Helping distressed sellers while reaping rewards is a "win-win" for everyone including lenders. If you are trying to build your Real estate empire, this book is a must have building block for success.

Good book and just kinda needs a little more specific info rather than examples of her experiences. It's clear throughout the book that the focus is on getting you to take her course which may be a good idea too....but I'm kind of on-the-fence about the approach

Shes awesome!! Plan to get coaching as soon as I return home from service. The meat is in the author, very humble person and never had a problem answering questions.

not bad book.gives basic understanding on subject to investing.however author promotes her course.

I found the information you provide valuable and cleared up a lot of misinformation. I found materials very easy to read and understand. I feel that you are providing a very good product. You provided example that are relevant and realistic. Well be taking training for success.

Loved this book, quick easy read that answered a lot of the main questions I was needing to know. Thanks!

Its a great book! Very educational. You got to buy the book!!!
