Outhouses: Flushing Out America's Hidden Treasures

Synopsis

This new book of photographs by Londie Padelsky offers readers a charming and quirky selection of outhouses from across the western states of America. Each region of the country boasts a different style and no one structure is the same. Some have been lovingly restored and others have aged with time and weather. Like David Stoecklein's series on cowboy gear and ranch style, this new book preserves a time-honored icon of the American West.

Londie Padelsky's colorful and quirky images of outhouses will delight all readers. Each outhouse tells a different story and each one reflects the personality of the ranch. Some have elaborate and whimsical decorations while others are minimal and purely functional. Some owners work hard to keep an outhouse in good shape and others allow them to fall into charming disrepair. These photographs preserve a time-honored icon of the American West.

A native Californian from San Louis Obispo, Londie Padelsky has photographed throughout North America and abroad, using medium-format, panoramic, and 35mm cameras. Her work has been published in numerous advertisements, books, calendars, and magazines such as National Geographic Traveler, Backpacker, Country, Outdoor Photographer, and Sunset. Londie has lived in the Eastern Sierra since 1982 and has photographed the Sierra wilderness extensively by foot and on horseback, often camping for several weeks at a time. In 1997, Londie led an eight-week

photography expedition by horseback with pack mules, crossing more than 250 miles on the John Muir Trail.

Love this book. Highly recommend it to others who enjoy a book while "sitting" on their thrown. Great gift idea too.

Great funny gift for the right person. The photos are beautiful and if you have a person that loves the out of doors they will appreciate this splendidly photographed book.

Bought for my father for Christmas and he couldn't put it down. Great pictures for an older generation that remembers those days.

For a certain breed or vintage of folks, esp. old farm boys and gals, this is a fun and well done book. Her photos from many places, including the top of Mt. Whitney, are super quality, historic, and amusing. I like her brief comments about each outhouse, or necessary room (she's listed many names for these special structures). A good gift for Grandpa or Auntie Isabelle, guaranteed they'll poke slowly through all the photos, with lots of chuckles along the way.

Great gift for those who have everything and are hard to buy for!
