Customer Reviews

I purchased the spiral bound version of the 2010 Healthcare Common Procedure Coding System (HCPCS) Level II manual on December 12, 2010 it was on sale for the price of \$48.97 the regular price was \$99.95. It was one of the required manuals I had to buy because I was going to take a medical coding class at a community college. I used this 2010 HCPCS Level II manual frequently for

coding exercises I had to submit in class and received an excellent score due to this user friendly spiral bound, full color format on the Netter Anatomy artwork is very descriptive and easy to understand. This handy reference guide has helped me to find the HCPCS Level II codes quickly and code the online insurance claims accurately and to determine which codes are payable to the Hospital Outpatient Prospective Payment System. It has helped me to ensure proper payment and appropriate reimbursement. Durable Medical Equipment, prosthetics, orthotics, and supplies indicators has helped me to quickly identify supplies to report durable medical equipment to medical third-party payers. The Table of Drug Code annotations has helped me to quickly identify brand name drugs as well as drugs that appear on the National Drug Class directory and other FDA approved drugs. The Appendices show the latest CMS (Centers for Medicare and Medicaid Services), Physician Quality Reporting Initiative, National Allowable Rates, and National Correct Coding Initiative standards to ensure compliance with current coding regulations.

I ordered this book and i love it. Everything that i order, no matter what it is i always get it in a timely manner. I have received this book just in time to take my exam. It was a new book and when i received it, it was well wrapped so that it would not get damaged. It came to me in great condition. Thanks ! I will continue to order my books and all of my items from you. I am very pleased with this website.

Great book!! This helped me get all the codes I needed to file the proper claims. This also helped with updating us on new codes we could use for things.

I buy these for co-works they need and love them helps with their jobs.

Being in the Medical Reimbursement field, purchasing the HCPCS manual was the best purchase I had made, It's easy to find codes are great. I would advise anyone who is in the medical coding field and needs the HCPCS manual or any medical manuals to get it through ,the prices are fantastic.

Great tool for classes and staying up to date

As far as medical billing goes, this volume is invaluable. The codes changes periodically so billers need the guidance that it provides.

As good as always. I was not able to utilize the book this time, but that had nothing to do with the book itself. The book was as good as always.
