The Spiritual Laws Of Life

Synopsis

There exist wonderful truths--spiritual laws that nourish us, one and all. Laws of wisdom, freedom, and charity, or divine love. How can we shape our lives and destiny to live in harmony with them? As awakened captains of our destiny, we can meet today's challenges in a more relaxed and happy way. The spiritual laws of life give us the many resources to make the very best decision at any one moment. Read Harold Klemp's groundbreaking book. Watch a new vista of understanding open for you. You've not seen the likes of it. Learn how to keep in tune with your true spiritual nature. Suddenly you're living a full, exciting life of greater love, energy, and wonder. Do you wish to open a door to the hidden spiritual truths that uplift us all? Then come along. Open these pages and enjoy the adventure!

Customer Reviews

This book is helping me spiritually more than any other right now. There are so many fine points made clear that help me see these laws at work in my own life. I've been telling all my friends about

it, but the first printing sold out in just a few months! I also recommend his book *How to Survive Spiritually in Our Times* and Rachel Remen's *Kitchen Table Wisdom*. Klemp says we need to (1) be aware of these spiritual laws, (2) see them working in our own lives, and finally, (3) see how they actually are helping us. I think this third step is really knowing in the proof of my own experience that life is a good thing, or in other words, that God really loves us. For instance, he shows how karma is a good thing. This helps me to fall in love with something that most other teachings talk about with a bad taste in their mouth. And the law of economy, that everything we need is right nearby, that life makes the most of everything, so now I'm looking closer and more carefully at things and finding many more choices than before (is that a bit of spiritual freedom?). And the law of consciousness: I like how he says that all change is a measure of spiritual growth. Take that into contemplation! The ramifications are endless. He has a total of 50 spiritual laws, and I'm beginning to understand each of them. I love this book!

I love this book each definition of each law or excerpt taken from other books it's short sweet and to the point if you want something that is a really in depth and super scientific and metaphysical then you should go with something lengthier this is good because it does help me to define what the laws are in simpler terms

Very useful book for daily living. Explains the situations we find ourselves caught in and have no clue why it is happening to us. Will recommend to all who seek meaning and purpose in life.

This book makes it easy to read and learn everything about what kind of spiritual laws can help us in everyday life. we can learn under what main law we want to see how to live a life less painfully then before.

Another set of interesting concepts to explore. Not sure what the ECK is. Still exploring this concept in order to fully understand his perspective.

Love it.

Direct and easy to read it lays out a lot of information in bite size pieces. I enjoy reading it and coming back is a pleasant experience. It is a book for your library and something to cherish.

This book is an excellent guide for going through this land-mine field we call everyday life. It is deeply spiritual yet practical and down-to-earth. A must have for anyone complaining that "life is too hard".
