Product Dimensions: 8.3 x 0.6 x 10.8 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars 10 customer reviews

Best Sellers Rank: #379,711 in Books (See Top 100 in Books) #162 in Books > Textbooks > Humanities > Foreign Languages > Italian #1618 in Books > Education & Teaching > Studying & Workbooks > Study Guides #2983 in Books > Textbooks > Test Prep & Study Guides

Customer Reviews

Joseph E. Germano, PhD, is an experienced teacher of Italian. Conrad Schmitt is the former editor in chief of McGraw-Hill Education's foreign language and ESL publishing program. He is the author of several textbooks for learning Spanish and French.

This is a great book for those who need to review their Italian. It provides exercises in order to solidify the knowledge that you have just reviewed. I do not believe that the book, alone, will give you the information that you wish. You have to practice the language, read the language, and do other activities in Italian. Of course, you must have the basics in grammar to speak properly. This is a great supplement to your language studies!

This is a book I deliberately chose as a gift to my friend. According to my own experience of learning Italian, this book offers the clearest, the most concise and useful Italian grammar. It also pinpoints the stressed syllables which is very helpful to the foreigners when learning to speak Italian. The exercises are easy to follow and they are practical to daily life. I just love it!

Best supplement to a course in Italian I have found. I'm using it to learn the rudiments of Italian grammar, and as far as I can tell, this outline is comprehensive and detailed enough to support a far more advanced study than mine.

This book is a very in-depth grammar course. If you don't like grammar, you won't be happy with this, because you WILL have to work.

Excellent grammar resource and helpful exercises.

This book is perhaps the best adjunct to any course study of the Italian language. I am using "Living Italian", but as I proceeded beyond the essential, I found it to be lacking in grammar explanation and examples. I am now using this book to provide a more coherent and complete explanation for the particular grammar topic I am studying. There are also many good examples and exercises in this book, so one can practice a particular topic to whatever depth to better retain the lesson.

Great learning tool.

My wife and I have been taking Italian from a private instructor for several years. He recommended this book as a good simple review and exercise book since it has answers in the back. It's probably at a more "elementary" level than we are at this time, but it is always good to go back and review. It would be good for someone starting out as well.
