PARADISE FOUND: THE CRADLE OF THE HUMAN RACE AT THE NORTH POLE (The Cosmology Of Antediluvian Polar Eden) - Annotated EARTH NOT ROUND → 5 MISCONCEPTION ABOUT COLUMBUS)

Synopsis

Because the location of the Garden of Eden should be one of those unanswerable questions, such as 'what song did the sirens sing?' William Warren wrote this book to propose a polar Eden, in some primeval ice-free epoch. He systematically employs data from contemporary geology, ethnology, zoology, botany and paleontology to bolster this argument.
