# Applied Mutation Breeding For Vegetatively Propagated Crops (Developments In Crop Science)

## Synopsis

When the first edition of this book appeared in 1978, it was warmly received. Most readers and reviewers especially valued the extensive coverage of the literature in the chapters dealing with the different crops. ``...a valuable and timely addition to plant breeders and of outstanding value to breeders of ornamental plants. The book's special strength resides in the extensive review of literature ...'' (International Journal for Breeding Research). This is also reflected by the many times that the work has been referred to in other publications. This new edition provides plant breeders as well as scientists with an up-to-date overview of methods and results of the application of mutation breeding in order to genetically improve vegetatively propagated crops. General principles and background information about mutation breeding in general, methods of treatment, material to be treated and results are discussed in the introductory chapters, followed by a description of the specific situation in each of the vegetatively propagated crops ever used in a mutation breeding project. This volume brings together all the important and relevant literature in the field.

## Book Information

Series: Developments in Crop Science (Book 12)

Hardcover: 360 pages

Publisher: Elsevier Science Ltd (August 1988)

Language: English

ISBN-10: 0444427864

ISBN-13: 978-0444427861

Package Dimensions: 10 x 6 x 1 inches

Shipping Weight: 1.7 pounds

Average Customer Review: 3.0 out of 5 stars 1 customer review

Best Sellers Rank: #9,304,825 in Books (See Top 100 in Books) #33 in [Books > Reference > Writing, Research & Publishing Guides > Publishing & Books > Bibliographies & Indexes > Agriculture](#) #1624 in [Books > Science & Math > Agricultural Sciences > Agronomy](#) #3159 in [Books > Reference > Writing, Research & Publishing Guides > Publishing & Books > Bibliographies & Indexes > Science](#)

## Customer Reviews

EVERYTHING IS GREAT. great, Thin and sharp. Well excellence. Great product. as description. my father this it is the best ,
