# 5 Finger Star Wars Arranged For Piano With Optional Duet Accompaniments

## Synopsis

(Five Finger Piano Songbook). Ten of the most memorable pieces from the Star Wars films have been arranged in traditional five-finger style, with the melody split between the hands, and without key signatures in the solo part. Starting hand positions are illustrated above each piece. Fingerings that are outside the noted five-finger positions and those indicating a shift in hand position are circled for easy identification. Dotted quarter notes, triplets and sixteenth notes have been avoided. All of the melodic arrangements have optional duet accompaniments created to achieve a fuller, richer musical experience. Titles: Across the Stars ("Love Theme") \* Anakin's Theme \* Cantina Band \* Duel of the Fates \* The Imperial March ("Darth Vader's Theme") \* Luke and Leia \* May the Force Be with You ("The Force Theme") \* Princess Leia's Theme \* Star Wars ("Main Title") \* Yoda's Theme.

## Customer Reviews

I purchased several copies of this book for my piano students. It worked perfectly for my beginner students who are on levels 1B or 2 in their lesson books. I looked through several other Star Wars Books, but they were too challenging. This one appears to be just right for several of my students. They are loving it! I highly recommend this book. Students are able to get the timing correct, and even the irregular finger patterns. These fun songs help them in their motivation to practice.

The 5-finger set up is great for beginners, but the melodies are not accurate. I am having to go through and modify them for my students, which defeats the purpose of having an easy 5-finger version.

There is another 5-finger book of Star Wars songs that basically has the left hand copy what the right hand plays. It's not easy for beginners. This is the best for beginners I've found. My students will love playing these songs.

My six year old is just learning the piano and LOVES all things Star Wars. This has been a great way to introduce him to the piano and hold his interest. I would fully recommend this if you can handle humming Star Wars all day long.

This music is not super easy, but it is helpful that it is 5-finger with a single melody line. I have used this book with 2 different piano students now. Could be used for students at a variety of beginner/intermediate levels - great for motivation for kids who love Star Wars!

My daughter loves using this in her beginners piano lessons. She is definitely more motivated to practice the piano when she has music that seems fun to her. Great compilation and fun for beginners.

A little challenging for my 7 year old but he needs a challenge :)

Great book, and the kids love being able to play Star Wars music. Both my children playing for 2 and 3yrs now love the book and enjoy the arrangements.
