Synopsis

NOTE: You are purchasing a standalone product; MasteringA&P does not come packaged with this content. If you would like to purchase both the physical text and MasteringA&P search for ISBN-10: 0805382941/ISBN-13: 9780805382945. That package includes ISBN-10: 080538295X/ISBN-13: 9780805382952 and ISBN-10: 0134014820/ISBN-13: 9780134014821. MasteringA&P should only be purchased when required by an instructor. For 2-semester Anatomy & Physiology Courses

Ã Â Built for the Way TodayÃ¢âs Students Learn Human Anatomy & Physiology takes a learner-centered approach to help todayÃ¢âs A&P students grasp key concepts in anatomy and physiology, and apply these concepts to understand how the human body works. Amerman uses just-in-time coaching, focused and uncluttered visuals that show one-concept-at-a-time, rich self-assessments, and author-narrated animations and videos to provide students the help they need when they need it most. The textÃ¢âs approachable style and wide variety of online learning tools for todayÃ¢âs on-the-go student makes A&P accessible for all learnersÃ¢â visual, kinesthetic, or auditory. Ã Â Also Available with MasteringA&P Ã Â® This title is also available with MasteringA&P Ã¢â an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Students, if interested in purchasing this title with MasteringA&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. Ã Â

Erin C. Amerman, Florida State College at Jacksonville Erin Amerman teaches anatomy and physiology at Florida State College at Jacksonville. She has been involved in anatomy and physiology education for more than 14 years as an author and professor. She received a B.S. in cellular and molecular biology from the University of West Florida and a doctorate in podiatric medicine from Des Moines University. She is also the author of the best-selling *Exploring Anatomy and Physiology in the Laboratory*, now in its second edition, with Morton Publishing Company. Erin is deeply committed to helping her students succeed in the A&P course, and to generating curiosity and excitement about the material and its application in their future health careers. She is a member of the Human Anatomy and Physiology Society (HAPS) and enjoys attending the annual HAPS conferences, especially when they are in locations that have ample hiking opportunities and many different species of snake.

Very fast shipping, item exactly as described, if I would have got this book through my college it would have been \$100.00 more very happy with price!! Will order from seller again. Highly recommend! Thank you so much!!

Terrible book, not easy to read at all.

I was not at all happy that the code for online didn't match the class it was registered to. I tried to solve the problem with and it would have taken over 3 weeks into the semester to fix. I ended up ordering the same book from the publisher.

A Book

Good book with lots of helpful study tips if you use them.

It took longer than I expected to actually receive the book and when I did the book was missing some very important pages while repeating others. It's missing a good 20 pages and repeating like

10 of them. It doesn't make sense at all.

Yes. It was in pretty good condition. good content too.

Good book, just what I was looking for!
