Spiral Of Need: Mercury Pack, Book 1

Synopsis

Ally Marshall isn't just a wolf shifter - she's a Seer. But a girl doesn't exactly need special powers to know that Derren Hudson despises her entire kind. Disdain practically rolls off the Beta of the Mercury Pack... disdain mixed with a healthy dose of desire. And no matter how much the ruggedly handsome male appeals to her, this is one call of the wild she's determined to ignore. After one betrayal too many, Derren doesn't have much use for Seers - except for Ally. Forced into acting as her protector, he finds himself intensely and passionately drawn to the woman who incites his primal instinct to claim. And when enemies target the pack, Ally's gift may be just what the Mercury Pack needs. Can he put his distrust aside, or will he force himself to turn his back on the one woman who makes his inner beast howl?

Customer Reviews

I LOVE Suzanne Wright and have been waiting for Spiral of Need to come out. In fact I have it pre-ordered and jumped for joy when I discovered it available to review on NetGalley (Thank you so much!!) We actually met Derren Hudson in some the Phoenix Pack series books (while you don't have to read those first I would recommend reading them because many of the characters from those books make appearances and they are great!) He is the Beta for the Mercury Pack and Nick, the Alpha's, best friend (although neither would admit it.) He is the quintessential broody, rough-around-the-edges, sexy, hot, alpha male even if he is the Beta. Who has been deeply hurt in the past by those who should have loved him. Not to mention he is very anti-social and he also hates Seers and with good reason that is until he meets Ally. Cain, a crazy psychopath, wolf whom

Derren knew from his past asks Derren to take Ally into the Mercury Pack to protect her until he gets out of prison and can do it himself. Derren reluctantly agrees and goes into this thinking that Ally is Reid's mate. Which makes the chemistry and lust he feels for her so wrong in his book. I mean this is the mate of a crazy person who will kill Derren if he touches her. Yet Derren doesn't care! He knows who and what he wants."Understand this, Ally. There is very little I consider an obstacle when I want something. And when I want something as badly as I want you, I won't let anything or anyone keep me from it. I marked you, and I don't consider that a small thing. Do you?"Ally Marshall is a wolf shifter and Seer who always feels like she doesn't belong and an outcast. When she was young her entire pack was slaughtered with only herself and Cain surviving. Since then Cain has been protective of Ally and when her former boyfriend Zeke's true mate begins to make problems for Ally Cain turns to Derren. For everything that you would think Ally would be after surviving the things she has the one thing she is not is weak. She is strong and has a mouth on her that doesn't quit."You need to seriously rethink defying me." "And guys need to stop shoving their hands down their pants to play with their balls in public." Ally shook her head. "Some things will never change."These two together are amazing and the chemistry is off the charts. As always Suzanne Wright has created a world that full of life. Of course I am so thrilled that Dominic (from the Phoenix Pack series books) makes an appearance here. He is my all time favorite and I really can't wait for him to find his one true mate. His cheesy pickup lines are going to get him beat up one of these days but he just doesn't seem to care. He always brings the right amount of humor to any situation. I can't wait for the next book!!! received this book for free from in exchange for an honest review. This does not affect my opinion of the book or the content of my review. Suzanne Wright has been a favorite author of mine for a long time. I'm never hesitant to buy her books. Each book she shows again and again why I love her. Her females are always strong, hilarious, bad arse, and sarcastic. Her males are all sexy, possessive and uber alpha. Her writing makes me want to leave the world behind and live within her stories. Her characters are real to me, they make me feel what they feel. Love, rage, jealousy, sadness, joy. Not many authors can bring a book to life for me the way she can. Now to Derren and Ally. They are absolutely perfect for each other, they really balance each other out. Derren has so much emotional baggage, we get hints of it in other books but to hear his story broke my heart a bit. I understand his trust issues and his hatred of Seers. He also has a soft side you didn't really get to see much until this book. He's such a great

character. Ally also has some emotional baggage, but she seems to handle hers a bit better. She is a total bad arse from page one and I fell in love with her quickly. She doesn't take any crap and isn't scared to voice her opinion. She is a great fit for Derren, rounds him out. I recommend this book to all who love a good story. The writing and characters are amazing. The story line is awesome with some twists I didn't see coming. Lastly the love is real and amazing to see develop. Can't wait to see what else Suzanne Wright has in store for this hilarious group of shifters!!

This maybe my fav, aside from Trey and Taryn. I loved Ally and Derren's story so much! Having lost her boyfriend to his true mate, to living in a PAC that turned on her to going to a PAC that despised her kind, she never faltered or apologized for who she was or what she could do! D fell for her HARD even with his prejudices and other obstacles in his way. Their love/mating was fiercely strong and palpable it oozed off the pages. I am deff reading their storyline again!

This is the best ever book ive read from this series. I love how all the characters from the other series came into it too and helped out where where it was needed. Gotta love Roni and Shay with the shears it was so damn funny. Dominic and his flirting lines never gets old, but so cute. And Greta why oh why does she always antagonize the women she loves but hate. So love this series and cannot wait for the next book and hopefully some of the new characters introduce will get a book of their own too. But i really so want Dominic's book to be next. This series is a definite must read. There is sass, wit, action, love and so much more!!

I read the Phoenix Pack one of the best stories ever written. I was so glad she has continued on with the Mercury Pack. I love Derren and Ally's story love the twist and plots of the stories. You gotta love a story that captures you and keeps you on pins and needles trying to guess what's going to happen next all the way to the end. Ms. Wright doesn't write short stores she writes stories that tell a whole story from start to finish with no cliffhangers . I started reading years ago this is t he way a story is told. Ms. Wright keep writing I guarantee you have a reader for life.

I love Suzanne Wright's books. I can't put them down and reread them over and over. Derren and Ally made a great couple. I love being able to have a seer step in and change their views. She was pretty awesome. I loved hearing escaping anything and her telling Derren she could so leave if she wanted to. Within a few days of being in the pack she does some incredible things. I can't wait for more books from this pack!!
