Product Dimensions: 9.1 x 5.8 x 0.6 inches

Shipping Weight: 12.3 ounces

Average Customer Review: 4.0 out of 5 stars 1 customer review

Best Sellers Rank: #1,897,312 in Books (See Top 100 in Books) #63 in [Books > Travel > United States > Oregon > General](#) #66 in [Books > Travel > United States > Washington > General](#) #4135 in [Books > Travel > United States > West > Pacific](#)

Customer Reviews

From the official series of the Rails-to-Trails Conservancy, this is your comprehensive guide to walking, jogging, skating, and biking Washington and Oregon's rail-trail system. This easy-to-use book includes thirty-five of the region's most popular rural and urban rail-trails; full trail profiles, including length, access points, difficulty rating, and surface type; detailed trail maps; at-a-glance icons for easy identification of rail-trails that best suit your interests; availability of parking, rest rooms, and places to eat along the trail; location of ranger stations and visitors' centers; where to rent bikes, boats, skis, and other recreational equipment. The Rails-to-Trails Conservancy is the largest trails organization in the country and the only one devoted to converting unused railroad lines to multi-use trails. Since 1986, the Conservancy's mission of reconnecting America with rail-trails has been taking shape all across the country. Today, more than 11,000 miles of rail-trails are open to the public. (5 1/2 x 8 1/2, 240 pages, b&w photos, maps, icons)

If you've seen other reviews of mine you'd know I have an extensive collection of hiking books dealing with Washington and especially Eastern Washington. This book is one of several Rails to Trail for WA I own. Written in 2001, this was a pioneering book on the subject. Certainly that cannot be downplayed in its importance. However, if you already have Best Rail Trails Pacific Northwest by

Natalie Bartley, this book is both older and offers redundant information. This book also lacks an all important index. If you are looking for just one book on the subject both are written about the same. Since Bartley claims to have added updated information, and indeed she does add Idaho trails to her book, make your choice based on that knowledge.
