NutriNotes: Nutrition And Diet Therapy Pocket Guide

Synopsis

Do your students need to calculate someone's body mass, but can't remember the formula? What should your students suggest when a diabetic patient wants a piece of fruit? This scrub-pocket-sized reference offers at-your-fingertips nutritional facts and important-to-know-but-rarely-memorized formulas. It contains nutrition assessment tools that can be written on with an ordinary ballpoint pen and easily wiped clean with alcohol to reuse again and again. Plus, it makes a great reference when a full nutrition text is not required."Whether a student is in beginning courses, a graduate student is working in nurse practitioner programs, or a nurse is currently working in a multitude of clinical settings, this book has merit. The book relates information that is needed in everyday life within clinical environments. It is a very compact reference, with an easy design for use. More importantly, the fact that it is waterproof and reusable makes this book a worthwhile resource. I intend to recommend this book for my students." Joyce M. Miller, MSN, WHCNP (Texas Tech University Health Sciences Center)"A wealth of nutrition information is packed into this practical, pocket-sized resource tool." Canadian Nurse, Volume 101, No. 2, February 2005

Customer Reviews

Awesome hand held note pad, perfect for the nutrition profession.

I had high hopes for this book, but was a little disappointed when it arrived. It contains some out of date info (the old food guide pyramid - not the new one, and definitely not MyPlate) and didn't contain some of the things that I need for reference regularly - certain calculations, etc. I have a bunch of note cards on a ring that I added reference material to throughout my undergrad and graduate nutrition career and I went back to using that.

This book is a wonderful pocket reference. I would recommend this to any nursing student to use in the clinical setting. Indexes and quick reference tabs are great for quick look ups and waterproof surface makes it easy to clean (because we all know that some gross stuff can get on it). Great Buy!
