Gender In History: Global Perspectives

Synopsis

Updated with new material to reflect the latest developments in the field, *Gender in History: Global Perspectives*, 2nd Edition, provides a concise overview of the construction of gender in world cultures from the Paleolithic era to modern times. Includes examples drawn from the most recent scholarship relating to a diverse range of cultures, from Ancient Mesopotamia to post-Soviet Russia, and from the Igbo of Nigeria, to the Iroquois of north eastern North America. Reflects new developments in the field with added coverage of primates, slavery, colonialism, masculinity, and transgender issues. Features significant discussion of the Paleolithic and Neolithic periods, an important trend in the study of world history. Lays out key theoretical and methodological issues in an introduction that is written in accessible language. Supplementary material for instructors and students available at www.wiley.com/go/wiesnerhanks

Customer Reviews

Ã¢â€”Å“This wonderful little volume packs an impressive amount of research into 227 pagesÃ¢â€”Å| this text makes excellent addition to an ancillary reading list for students who too often receive a seriously abbreviated version of womenÃ¢â€”â„¢s roles in history.Ã¢â€”Å•Ã¢â€”Å (World History Connected, 1 February 2013)

Over the past two decades, considerations of gender have revolutionized the study of history. Yet most books on the subject remain narrowly focused on a specific time period or particular region of the world. *Gender in History: A Global Perspective*, 2nd Edition, continues to redress this inequity by

providing a concise overview of the construction of gender in many world cultures over a period stretching from the Paleolithic era to modern times. Thoroughly updated to reflect current developments in the field, the new edition features entirely new sections which address primates, slavery, colonialism, masculinity, transgender issues, and other relevant topics. As in the extremely well-received first edition, material is presented thematically to reveal the connections between gender and structures such as the family, economy, law, religion, sexuality, and the state. Wiesner-Hanks, a leading scholar in the field of women's history, also investigates precisely what it meant to be a man or woman throughout history; how these roles were shaped by various institutions; and how they in turn were influenced by gender. The author presents material within each chapter chronologically to highlight the ways in which gender structures have varied over time. With remarkable clarity and theoretical sophistication, the new edition of *Gender in History: A Global Perspective* offers rich insights into all that is currently known about gender roles throughout world history.

a great book to understand the position of each person through history labeling by gender.

Good, comprehensive review of the literature.

Good book.

LOVE this book. The perfect view of women in history.

Wish this were longer. Otherwise excellent overview. As upsetting as the author warns it will be, and an important read.
