I'm not a young Mom just starting out. I'm an older person with years of bad habits under my belt. If "I" can find something that inspires me as much as this wonderful young woman and her smart, sassy, silly, nurturing, down to earth style then everyone will. I saw myself in her pages just as I've seen myself in her YouTube videos. I've already made big changes and am reaping the benefits.. As we age we might not have the patience or energy on some days to run around like a chicken with our heads cut off trying to find that "whatchathingy" we KNOW we own. We get tired of wasting time finding that bill or coupon or list we KNOW we JUST saw. With the kid years behind us we often yearn for peace and a tidy organized home. Cass knows how we feel and she has an idea how to fix it. No little shrines to your ratty tee shirts, no goodbye notes to your chipped plates . This is a book for those of us who don't have time for that foolishness..we want to live our lives and DO things. In short we want our homes to serve us not the other way around. THANK YOU Cass for putting into words what we know in our hearts, Oh and as final note..the book is pretty and will look lovely on your clean bookshelf

I usually don't write reviews. The most I usually do is rate something after sends me an email. I am paying it for by writing one for this book. I am also returning a favor to all the reviewers I depend on

before buying something on . I love this book. It is a fast read. The author is funny and it has lots of pictures. I read it in 3 days. I don't usually finish reading books either. I could have read it in one day but I have 3 kids and a job. I was so inspired to declutter that I started decluttering after only reading half the book at work when I got home the same evening. It's changed my life. No exaggeration. I have several books on decluttering and organizing, including Marie kondo and Peter walsh, this is the best one. I feel in control. The author, cas aarssen, gives detailed advice on where to start and what kind of "clutterbug" you are. I wanted to suggest my favorite chapter but the whole book is great advice. The picture I added is her in/out system. Learn about it in her book. I paid for this book. I did not get it for free. I also subscribe to her YouTube channel.

I've read many organizing books and this is by far the BEST! She offers REALISTIC organizing ideas! It's not some unattainable Pinterest facade...but what a working mom and wife like myself can Attain! I was blown away when saw that the back of the book was filled with lists, charts, and guides that she herself uses, and she provided them for us

ÃfÃ Ã ÅÃ â Ã ÃfÃ Ã ÅÃ ÅÃ Å I will be buying a few more to give away. I can not say enough great things about this book! I truly hope this is one of many more to come from this author. 5 stars all the way!

If you're not a naturally organised person, this book can help you get better at it. She doesn't talk down to you and she has been there so you know she gets where you're at.

Love to watch her Youtube Channel and her fun and relatable personality carries over into this book. Simply written and jammed full of awesome printables for me to use. I would highly recommend this book to anyone looking to get organized. I promise you will find something in this book that you can apply to your life and home.

Love this book it's a really good real life approach on many of the struggles we all have. The author is down to earth easy to understand and all of the tips are realistic!

I have been following Cassandra on Youtube for a long time, and her book proves to be as useful as her channel - practical, real-life organizing and home-keeping advice that is applicable for anyone.

This book is so good! Cass explains concepts of cleaning and organization in a way that even I can understand. The book contains great printables, checklists, etc. Highly recommended.
