The book was pretty basic and just like most nursing writing, it is very wordy when it may not be necessary. The section on delegation needs more relevance to practice, so instructors should not use it to teach the basics of delegation, maybe theory, but not practice. A separate resource is needed for that.

This book was a required book by my Nursing Leadership class so as any starving student would do I rented it. While going through the reading I found the information was bland, and it took quite some reading within the book to get the message and to the point. The case studies and boxes within each chapter were helpful. I knocked off one star due to the reading being a tad boring, but that can be expected for any textbook. The second star I had to take off was due to a large cut through the front cover of the book but then again it was rented. However for the price of the rental this student can't complain too much. Regardless, just be mindful if you are renting this book that there may be defects and some wear and tear.

It was required for school. But the reading is so dry. And much of it seems fairly obvious. Worst reading I ever had to do for nursing school.

One of the worst nursing books out there. This book is the definition of verbose. Probably every page could be condensed down into a few sentences. It is incredibly wordy and one of the most poorly written nursing books I've had so far in nursing school. Every sentence sounds like the author is just trying to show off rather than conveying the information in a clear and coherent manner.

This was required for a nursing course and it was a good deal to rent.

We were required to use this book in my BSN leadership class. I was very disappointed in this selection. The material is so drab and hard to get through. There are no practice questions

anywhere in the book.

good book!!!

This is a good book because its small, the information is straightforward and easy to read. In my opinion its very understandable. I love the bolded words with the defintion and each bolded section.
