Customer Reviews

Less info (and worse pictures) than your average Instructables article. Don't bother.

very good info that you may need

Good book.

The cover of the book shows a staple gun and 22 caliber bullets to make you think you are going to be able to make a pistol out of them. But there is nothing in the book about it. The weapons shown in the book are primitive ones at best. Stuff I used to make a kid in boy scouts.
