Glitter Artistry: Bags, Tags & Cards

Synopsis

Glitter is not just for child's play anymore! Now it's a sophisticated, high-quality product available in hundreds of sparkling shades, sizes, and styles. Barbara Trombley, the owner of Art Glitter, Inc., has pioneered the field, creating unique colors and designing her own magnificent line of cards. So, who better to explain the entire dazzling process? She discusses the difference between opaque and transparent glitters; the diverse sizes, from chunky to ultra fine; the categories of sheen, from neon to pearlescent; the all-important adhesives; and a variety of exciting techniques. What will really thrill crafters are the shimmering bag, tag, and card projects; some travel and vintage inspired, others seasonally themed, and still more for celebrations such as birthdays, graduations, and weddings. A Selection of the Crafters Choice Book Club.

Customer Reviews

I bought this thinking (looking at the cover picture and reading the explanation) that would offer more instruction than what I found on youtube. It really does not. I bought it used for a really good price, so I can't complain. Makes for a good reference, instead of having to keep pulling up instructions and demos on youtube. Definitely would not recommend paying full price for what you can also find on youtube.

no problems

This book gives really great ideas to work with. Shows you how to create new cards with materials you already have. All tips are clear and functional which makes things easier and funnier. I totally love this book! If you are a card maker go for it!!, you won't regret it.

I highly recommend it. Very well written. Instructions are very clear. Book even shares where the tools to make the items can be purchased. Very good pictures of the end product.

Glittery goodness! Lots of great projects that will mesmerize you with their shiny-ness. I enjoyed this one, and recommend it to other crafters

It is hard for me to buy books off line but I loved everything about this book, it was very informative and taught me things I never knew. The graphics were beautiful!!

This book shows beautiful designs and has helpful hints for beginners even though some of the designs are very sophisticated. It is quite enjoyable and stimulating to see such work.

I'm not a "bling" crafter normally, but saw the author demonstrate the lace technique on a Carol Duvall show re-run and had to get this book. I never knew there was an "art" to making glitter or the reasons that all glitter is NOT alike. The photos are wonderful and the techniques are all clearly explained and adaptable to any type of paper crafts. I also appreciated the cover price--many of the crafting books on the market cost much more and offer much less information. This is a great value.
